EQUIUM CAPITAL MANAGEMENT INC. LAUNCHES ETF SERIES

(Toronto, November 6, 2017) – Equium Capital Management Inc. announced today the launch of the exchange-traded series (“ETF series”) of Equium Global Tactical Allocation Fund (TSX: ETAC) (the “Fund”).

The ETF series is designed to provide investors with an additional point of access to the Fund. The Fund seeks enhanced capital protection while aiming to deliver long-term capital appreciation by investing primarily in a mix of global equity securities, fixed income investments, derivative securities, and money market instruments. The Fund may obtain exposure to these securities directly or through exchange-traded funds. Full details of the Fund are available at www.equiumcapital.com/resources.

The initial offering of the ETF series of the Fund is now closed, and units of the ETF series will be available for trading on the Toronto Stock Exchange at market open today.

Commissions, management fees and expenses may all be associated with investments in the ETF series of a mutual fund. Investors should carefully considering a fund's investment objectives and strategies, risks, fees and expenses before investing. The prospectus and ETF facts contain this and other information. Please read the prospectus and ETF facts carefully before investing. ETF series trade like stocks, fluctuate in market value and may trade at prices above or below the fund's net asset value. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.
